

~~CONFIDENTIAL~~

2 June 1959

MEMORANDUM FOR: Chief, TSS/ED

SUBJECT: Aerial Delivery Dispatch System

1. The final tests on the "breadboard" model of the aerial delivery dispatch system indicated that entire planeloads can be dispatched from the modified C-54 in a very short time.

2. It is, therefore, requested that you proceed with Phase III, the procurement of one (1) prototype delivery system. The minor modifications that were agreed upon by the Ad Hoc Committee should be incorporated in the forthcoming prototype.
